# Perfect Life: High School Dress Up

---

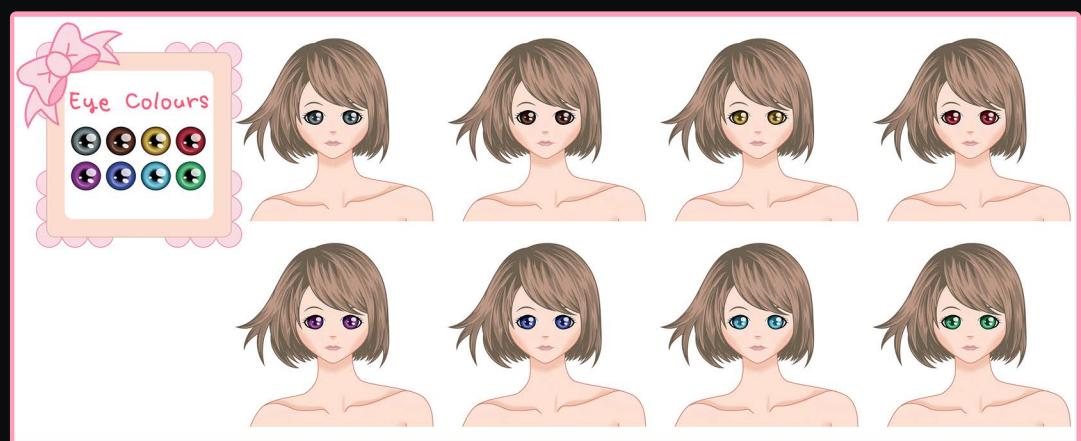

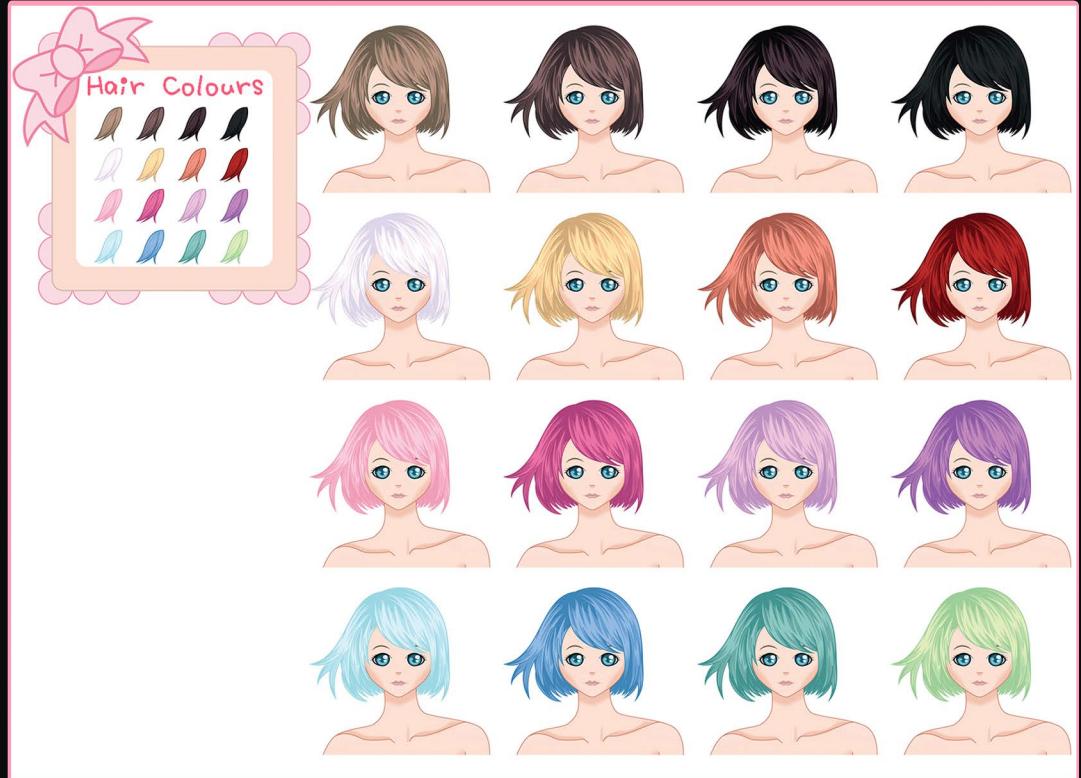

This is a playable prototype for a larger-scale Flash game which subverts the “Girl Game” genre to address issues of femininity in this media culture driven society. Tasks I performed included;

- Designing and creating UI in Photoshop and Illustrator
- Illustrating art assets using Photoshop and Illustrator
- Creating a functional game in Flash using Actionscript 3.0

Prototype can be played at <http://chalim.net/PerfectLife>

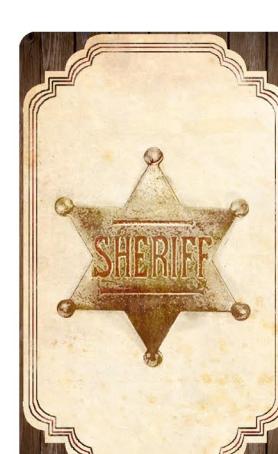

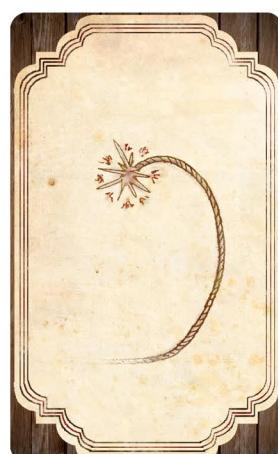

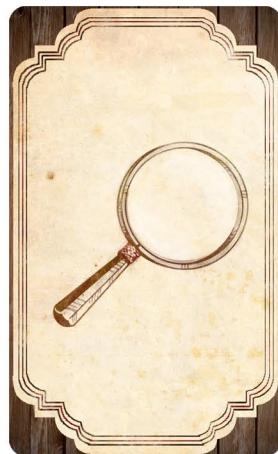

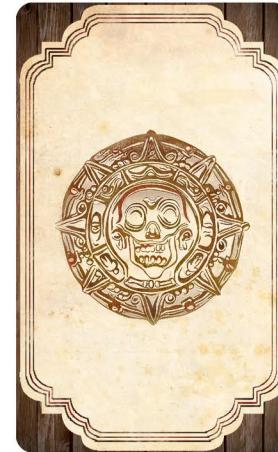

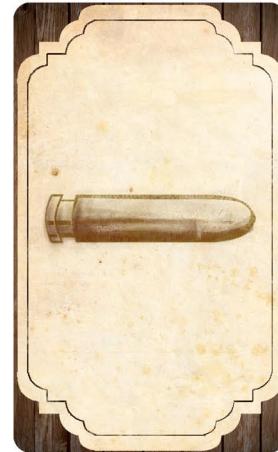

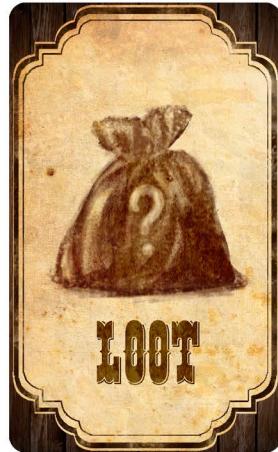

# Other Work

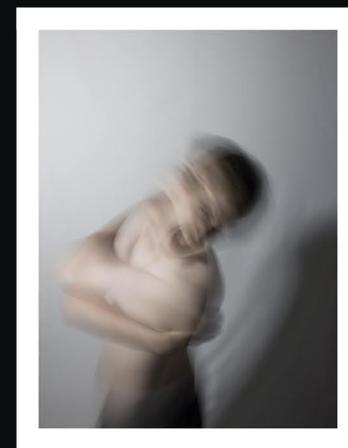

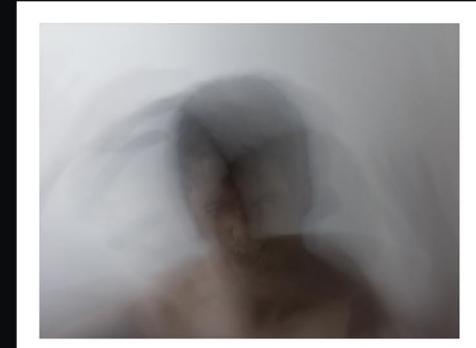

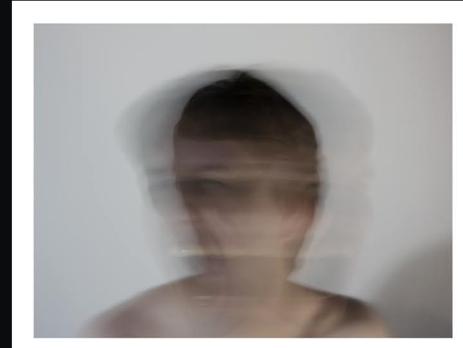

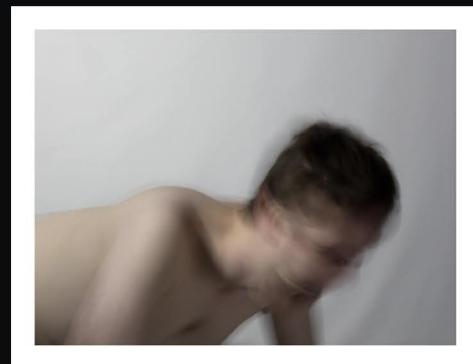

---

A selection of smaller projects and individual pieces I have completed.

# Thank You
